In addition to being an authorized sales representative for CadGEN products, Contechnical, Inc. (www.contechnical.com) offers services to support your drawing and documentation needs.

Our specialty is the preparation of fire alarm installation drawings, in many cases to absorb drawing production overload.

Some of the benefits of using Contechnical, Inc. services:

- Accurate system drawings using FireCAD software.
- Drawings returned in AutoCAD .dwg format for opening in AutoCAD.
- Drawings returned in Adobe .pdf formats.
- Two levels of completion:
 1. Complete system layouts including title blocks and other project information.
 2. Alarm system only layouts showing just the system and the calculations ready for you to incorporate into your own layouts.
- Reasonable pricing.
- Rapid response to your needs, even last minute projects completed overnight. Some projects can be turned around in 24 hours.
